PROFESSIONAL COMPUTER SYSTEM VALIDATION ANALYST

M.Sc. in Analytical Chemistry with 9 years of pharmaceutical industry experience, including 5 years in CSV, and expertise in QMS and Quality Control 21 CFR Part 11, Annexure 11, and GAMP 5

SUMMARY

Having rich experience in Quality, Computer System Validation, Equipment Qualification/Validation and Quality Management System in Pharmaceutical Industry. Exposure to GxP, GAMP, FDA & EU guidelines, 21 CFR Part 11, Annexure 11, ICH Q9 for Life science industry.

Responsible for Software Validation, test script preparation, Execution & review.

Ensure there is a Risk Management Plan in place which is well aligned to the ICH Q9, and all the identified risks are realistic in nature.

- SME in QC and CSV related quality management system and compliance.
- Involved in the CSV activities of Empower and Chromeleon softwares.
- Involved in the preparation of URS, IRA, FRA, project validation plan, project validation report, traceability matrix document, IQ, OQ, PQ protocols.
- Expertise in GXP, GMP, GDP System in Lab Equipment's and Software Qualifications
- Expertise in computer system validation as per the regulatory requirements.
- Expertise in computer system validation in line with 21 CFR parts 11, EU annexes 11, GAMP 5 compliance, V-model, Agile.
- Expertise in review and approval of periodic review activity and calibration.
- Review and evaluation of change controls, deviations and CAPA related to equipment, systems and facilities followed by having good presentation skills in training the CFTs
- Having very good knowledge in preparing SOPs in EDMS and exposure in review and approval of equipments in Valgenesis..
- Expertise in carrying out investigations related to equipment and facilities
- Exposure to internal audits, customer audits and regulatory audits which includes the preparation for audit, providing timely effective response for the same.

AREAS OF EXPERTISE

- CSV & Quality Compliance.
- Quality Management system.
- Software Empower-3, Chromeleon, UV Win lab, Tiamo, UV Probe, LIMS, SAP, Quality one, Biovia, Valgenesis.
- Project planning skills.
- Strategic thinking and Creative problem solving.

- Awareness of industry Trends.
- LIMS.
- Instrument Qualification.
- Jira Software, Creating the Task, Sprint planning, Road map updates.

EXPERIENCE

NOVEMBER 2023– PRESENT

SENIOR EXECUTIVE, STELIS BIOPHARMA, DODDABALLAPURA

- Evaluating new Software by coordinating with Vendors.
- Supporting a cross functional team to prepare and execute the Qualification Protocols.
- Responsible for periodic review of all software in QC lab.
- Preparation and review of URS, DQ, IQ, OQ and PQ by referring user manuals and software privilege matrix.
- Good knowledge in GxP, 21CFR PART 11, EU Annex 11, GAMP 5 compliance, V-model.
- Preparation of qualification protocols as per regulatory requirement for process equipment.
- Risk Assessment, Security & Compliance.
- Preparation of validation documents including design qualification reports, installation qualification, operational qualification protocols, SOP, maintenance instructions and other validation documents.
- Verification of system controls for the data protection and electronic reports.
- Preparation of documents for validation and taking approval.
- Performed 21CFR part 11 Gap assessment for all Computerized systems.
- Expertise in GXP, GMP, GDP System in Lab Equipment's and Software Qualifications.

DECEMBER 2018– AUGUST 2023

SR.EXECUTIVE, BIOCON BIOLOGICALS, BANGALORE

- Preparation & Execution of Validation protocols of analytical test methods.
- Preparation of validation documents for newly installed instruments like HPLC, UPLC, GC, UV, freezers, Balance, pH metre and software like Empower in lab for IQ, OQ, PQ with vendors.
- Performed tests required in performance qualification for software like empower, UV winlab, Tiamo etc.
- Performed periodic verification for empower software.
- CAPA implementation and effectiveness check.
- Periodic calibration, performance check of laboratory instruments.
- Troubleshooting of instruments and provide supporting documents.
- Result entry in Labware LIMS for finished products and stability samples.
- Working Standard and Reference Standard issuance and consumption record update in LIMS.

SEPTEMBER 2015 – JANUARY NOVEMBER 2017

JUNIOR OFFICER, APOTEX PHARMACHEMA IND LTD., BENGALURU

- Performing analysis and calibration of instruments and equipment like HPLC, GC, Karl Fisher Titrator, UV-VIS spectrophotometer, polarimeter, melting range apparatus, FTIR and Analytical Balances, Microbalance, as per calibration SOP respectively.
- Performed performance qualification tests for newly installed software in the lab.
- Performed calibration for all instruments in lab,
- Preparation of supporting documents for validation of instruments as per regulations.
- Preparation and Approval of SOPs related to Quality equipment.
- Qualification of Working Standard.
- Laboratory set up for new manufacturing plant and made ready for audit inspections.
- Handling of Internal Audits and Customer audits.
- HANDS ON EXPERIENCE IN LIMS SOFTWARE

EDUCATION

MAY 2015

MASTER OF SCIENCE, ST. ALOYSIUS COLLEGE (MANGALORE)

Pursued Master's in chemistry and secured 62%

MAY 2013

BACHELORE OF SCIENCE, MANGALORE UNIVERSITY COLLEGE (MANGALORE)

Secured: 75 %

MAY 2008

SSLC (SDPHS, GOVT HIGH SCHOOL (DHARMATHADKA KASARAGOD KERALA)

Secured: 80 %
