## SUMMARY

Validation Engineer with expertise in quality management and compliance within pharmaceutical and IT sectors. Proven ability to develop validation strategies, prepare test cases, and execute protocols aligned with GxP and 21 CFR Part 11 standards. Successful in fostering cross-functional collaboration and enhancing application lifecycle management. Strong analytical and time management skills contribute to effective auditing and continuous improvement initiatives.

---

## EXPERIENCE

**VALIDATION ENGINEER**, 11/2021 - Current

**Vaisesika Consulting Pvt Ltd**, Bangalore

- Conducted comprehensive test case preparation and execution, ensuring quality management across projects.
- Collaborated with IT and business teams to finalize validation strategies for GxP projects.
- Reviewed User Requirements Specifications (URS) and Functional Requirements Specifications (FRS) for accuracy.
- Developed assessment checklists for 21 CFR Part 11 and GxP compliance regarding electronic records.
- Supported Validation Lead activities, including execution of Validation Plans and review of reports.
- Guided team members in Application Lifecycle Management (ALM) tasks to enhance efficiency.
- Updated validation processes to ensure alignment with regulatory changes and maintain compliance.
- Prepared detailed project status reports on a weekly and daily basis.

---

**PROGRAMMER ANALYST**, 06/2018 - 11/2021

**Cognizant Technology Solutions**, Chennai

- Requirement gathering and analysis.
- Develop Validation Test Plans in accordance with regulatory requirements and SOP's.
- Develop and execute validation protocols (OQ, PQ).
- Review of OQ's for both pre-approval and post-approvals.
- Conducted manual testing across various platforms - web, mobile and desktop applications to identify defects and ensure adherence to requirements.
- Identified, documented and tracked software defects using bug tracking systems and worked closely with development teams to prioritize and resolve issues.

- Performed regression testing to validate software fixes to ensure the stability of new releases.
- Preparation and review of Traceability matrix
